

ANNEX III

Faunistic list of all species caught by frequency of discarding (1-occasional, 2-frequent, 3-systematic) in crustacean (CT) and fish (FT) trawls, with their common names in English (EN) and Portuguese (PT). Scientific names are placed in alphabetical order inside each taxon and in bold are represented the 93 discarded fish and cephalopod species used for the statistical analysis. Scientific names are according to Froese and Pauly (2012) and Appeltans *et al.* (2012).
